

ARJUN KATHUMBARE

Full Stack Developer | MERN Stack Developer

+91 7666277351 | arjunrajput7531@gmail.com | Aurangabad, Maharashtra, India | github.com/classyarijun | linkedin.com/in/classyarijun

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in REST APIs, authentication, payment integration, real-time communication, responsive UI development, database design, and performance optimization.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Redux, Next.js, Tailwind CSS, Bootstrap, ShadCN

Backend: Node.js, Express.js, REST APIs, JWT, Socket.io

Database & Tools: MongoDB, Git, GitHub, Linux, Postman

PROFESSIONAL EXPERIENCE

OpenFuture Technologies Private Limited — MERN Stack Developer

Aug 2024 – Present

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built reusable React.js components and designed RESTful APIs to support core application features.
- Improved application performance by approximately 30% through code and data-handling optimization.
- Collaborated with cross-functional teams using Git/GitHub for version control and code review.

Sharkweb IT Private Limited — MERN Stack Developer

Jun 2023 – Jul 2024

- Developed full-stack features using React.js, Node.js, Express.js, and MongoDB, integrating REST APIs.
- Built reusable React components and optimized backend APIs, contributing to a 20% increase in user engagement.
- Designed MongoDB schemas and collections to support application data structures.

SELECTED PROJECTS

RentOnFriend — Friend Rental & Social Connection Platform | rentonfriend.com

- Built a full-stack platform (React.js, Node.js, Express.js, MongoDB) for discovering and booking companions.
- Developed secure REST APIs with JWT authentication for user profiles, bookings, and payments.
- Integrated a payment gateway and implemented real-time chat/notifications using Socket.io.
- Designed scalable MongoDB schemas for users, bookings, payments, and reviews.

TheJobFactory — Job Portal Platform | thejobfactory.net

- Built a job portal with React.js and REST APIs enabling recruiters to post jobs and candidates to apply.
- Implemented search/filter functionality with reusable React components and optimized backend APIs.
- Deployed the application using Render (backend) and Netlify (frontend).

EDUCATION

BCA Science — Deogiri College, Aurangabad, Maharashtra, India | 2019 – 2022

CERTIFICATIONS

MERN Stack Development — Coursera | MERN Stack Development — Internship
